

Pappas Telecasting Companies' 'donation' of \$325,000 in airtime to Republican candidates in certain areas is yet another example of a powerful media group abusing its privileged access to the public airwaves.

I want equal representation of candidates, that includes all other parties in the political election of our country.

I strongly urge the stop to such disastrous actions by those who think they can wield their power based on their bank account ammount. This is the USA where democracy must shine prosperity to all people living under its title and not to just a few privilage elite.
